### Wyckoff / Eagle Harbor Superfund Site Update

Wyckoff in Morning Light

### Beaches at Wyckoff Still Contaminated

Summer is quickly approaching and with it, sunny weather and low tides during daylight hours. You may be one of many who enjoy strolling along the beaches at Pritchard Park. EPA and the Washington Department of Ecology want to remind the local community around the Wyckoff/Eagle Harbor Superfund site that portions of the beaches east and north of “the Point,” the site’s former processing area, are still contaminated.

This fact sheet:

[<https://semspub.epa.gov/work/10/100044519.pdf>]  
tells how to identify creosote and offers tips to  
help you stay safe this summer.
